ANDES

S3-Safetyshoe with sole plate for wet work

Stay safe and alert with the world's First circular safety shoe.

A modern shoe that not only looks good but also protects your feet from top to bottom and everywhere else. Andes features a steel toe cap and an integrated stainless steel plate. The double-layer, antislip PU sole provides extra protection from hazards on the ground. Thanks to the shoe's energy return, you will remain active and alert all day long.

The world's first ever circular safety shoe!

This is an entirely circular safety shoe: all the materials are reused, for example in furniture, building materials and, of course, to make new safety shoes. Andes is one of EMMA's first six circular models.
