ROCKY

S3-Safetyshoe with sole plate for wet work

Rocky by name and nature.

The 'go anywhere' safety shoe that moulds itself to your foot. As low version of the Ranger, the Rocky uppers are crafted from soft, supple nubuck leather. Anti-slip soles will keep you upright on almost all surfaces. It's a perfect shoe for those working in Transport and Logistics because of its versatility. The Rocky is suited to all aspects of loading and unloading, climbing onto palette stacks, and in and out of truck cabs - whatever the weather.

This is an entirely circular safety shoe: all the materials are reused, for example in furniture, building materials and, of course, to make new safety shoes.
